We have organized our office in this fashion to free-up your Manager's time to be out on property, serving the community. We are very confident that this structure will exceed your expectation. Reserve Summary

(As required by California Civil Code Section 5565)

MONTAGE AT MISSION HILLS HOMEOWNERS ASSOCIATION

SCT Reserve Consultants, Inc. is pleased to provide this Level I Reserve Study (Site Visit Full Report). In order to comply with the California Civil Code, specifically the Davis-Stirling Common Interest Development Act, Section 5565, we are providing the following information to the Homeowners within MONTAGE AT MISSION HILLS HOMEOWNERS ASSOCIATION.

The following study has been prepared with several assumed factors taken into account: a 2.00% inflation rate; a 3.00% return on investment (interest earned); taxes on interest earned is paid for through the operating fund; an estimated remaining life of each reserve component; and an estimated current replacement cost of each reserve component.

As of December 31, 2022, the estimated ending reserve fund balance is \$269,750 and the estimated current replacement cost is \$2,032,887 for the portfolio of reserve components. The projected future replacement cost of the portfolio is \$2,753,502, calculated at an annually compounded inflation rate of 2.00%. The Association's level of funding which is based upon the estimated ending reserve fund balance divided by the reserve components' fully funded amount is 25.46%. This is referred to as Percent Funded. The Association would be 100.00% funded if there were \$1,059,520.80 in the reserve fund.

The current deficiency (or surplus if the number is in parenthesis) in reserve funding expressed on a per unit basis is \$6,170.08. This is calculated by subtracting the ending balance (\$269,750) from the 100% funded figure (\$1,059,520.80), then divided by the number of ownership interests (128). There is currently no requirement to be fully funded.

Our original analysis of the cash flow for this association indicated future inadequate funding if there were no annual increases to the Reserves. We recommend the Board of Directors allocate a monthly amount of \$6,230.00 starting in 2023 (\$48.67 per unit per month for each of the 128 ownership interests) towards the reserve fund. To offset the over/under cash results of the report, we recommend and have included a change of 3.54% starting in 2024 for 29 years. This report includes \$40,428 for Palm Tree Plan Surcharge in 2023 for 5 years. The Board of Directors may change the amount; however, it will impact the level of funding on reserves. These numbers, by themselves, are not a clear indicator of financial strength and could indicate underfunding, overfunding, or adequate funding.

The following table represents additionally required information pursuant to the Davis-Stirling Common Interest Development Act, Section 5565.

Assessment and Reserve Funding Disclosure Summary

For the Fiscal Year Ending December 31, 2023

(As illustrated by California Civil Code Section 5570(a))

(1) The regular assessment per ownership interest is **\$300.00** per month, of which approximately **\$48.67** is allocated to reserves, monthly.

*Note: If assessments vary by the size or type of ownership interest, the assessment applicable to this ownership interest may be found on the following page of the attached summary. **NOT APPLICABLE***

(2) Additional regular or special assessments that have already been scheduled to be imposed or charged, regardless of the purpose, if they have been approved by the board and/or members: **SEE ANSWER BELOW TO QUESTION #4 WHICH SUGGESTS THERE WILL BE INCREASES IN REGULAR ASSESSMENTS FOR RESERVE FUNDING.**

Date assessment will be due:	Amount per ownership interest per month or year:	Purpose of the assessment:

*Note: If assessments vary by the size or type of ownership interest, the assessment applicable to this ownership interest may be found on the following page of the attached summary. **NOT APPLICABLE***

(3) Based upon the most recent reserve study and other information available to the board of directors, will currently projected reserve account balances be sufficient at the end of each year to meet the association's obligation for repair and/or replacement of major components during the next 30 years?

Yes X No X

Yes, if the Association follows the recommended future reserve contribution increases as outlined in the reserve study and disclosed in the table of question (4) with consideration to the note below*.

No, if the Association does not follow the recommended future reserve contribution increases as outlined in the reserve study and disclosed in the table of question (4) with consideration to the note below*.

**Note: The information contained within the reserve study includes estimates of replacement value and life expectancies of the components and includes assumptions regarding future events based on information provided by and supplied to the Association's Board of Directors and/or management. Some assumptions inevitably will not materialize and unanticipated events and circumstances may occur subsequent to the data of this disclosure summary. Therefore, the actual replacement cost and remaining life may vary from the reserve study and the variation may be significant. Additionally, inflation and other economic events may impact the reserve study, particularly over a thirty (30) year period of time which could impact the accuracy of the reserve study and the funds available to meet the association's obligation for repair and/or replacement of major components during the next thirty (30) years. Furthermore, the occurrence of vandalism, severe weather conditions, earthquakes, floods or other acts of God cannot be accounted for and are excluded when assessing life expectancy of the components. The reserve study only includes items that the Association has a clear and express responsibility to maintain, pursuant to the Association's CC&Rs.*

(4) If the answer to (3) is No, what additional assessments or other contributions to reserves would be necessary to ensure that sufficient reserve funds will be available each year during the next 30 years that have not yet been approved by the Board or the members?

Approximate date assessment(s) will be due:	Amount per ownership interest per month:
3.54% starting in 2024 for 29 years	(Current amount) X (the increases)

(5) All major components are included in the reserve study and are included in its calculations.

(6) Based on the method of calculation in paragraph (4) of subdivision (b) of Section 5550, the estimated amount required in the reserve fund at the end of the current fiscal year is **\$1,092,066.51**, as of **December 31, 2023**, based in whole or in part on the last reserve study or update prepared by **SCT RESERVE CONSULTANTS, INC.** The projected reserve fund cash balance at the end of the current fiscal year is **\$277,069.04**, resulting in reserves being **25.37%** percent funded at this date. If an alternate, but generally accepted, method of calculation is also used, the required amount is **\$115,032**. (See explanation below).

Explanation: *Cash Flow Methodology - a method of developing a reserve funding plan where contributions to the reserve fund are designed to offset the variable annual expenditures from the reserve fund. Different reserve funding plans are tested against the anticipated schedule of reserve expenses until the desired funding goal is achieved.*

Assessment and Reserve Funding Disclosure Summary

For the Fiscal Year Ending December 31, 2023

(continued)

7) **See below: 30-Year Reserve Funding Plan Table...** Based on the method of calculation in paragraph (4) of subdivision (b) of Section 5550 of the Civil Code, the estimated amount required in the reserve fund at the end of each of the next five budget years is \$(see “100% Funded” column below), and the projected reserve fund cash balance in each of those years, taking into account only assessments already approved and other known revenues, is \$(see “Cash Flow Balance with Funding Plan” column below), leaving the reserve at (see “Percent Funded” column below) percent funding. If the reserve funding plan approved by the association is implemented, the projected reserve fund cash balance in each of those years will be \$(see “Cash Flow Balance with Funding Plan” column below), leaving the reserve at (see “Percent Funded” column below) percent funding. Note: The financial representations set forth in this summary are based on the best estimates of the preparer at that time. The estimates are subject to change. At the time this summary was prepared, the assumed long-term before-tax interest rate earned on reserve funds was **3.00%** per year, and the assumed long-term inflation rate to be applied to major component repair and replacement costs was **2.00%** per year.

Summary

In accordance with our proposal, 2004-078, SCT Reserve Consultants, Inc. is pleased to provide this ***Level I Reserve Study Site Visit Full Report for MONTAGE AT MISSION HILLS HOMEOWNERS ASSOCIATION***. Our study was performed in accordance with the Davis-Stirling Common Interest Development Act, specifically §5550, of the California Civil Code. This report included a site inspection on August 5, 2022 for the 2023 budget year. This *planned (single-family detached home)* common interest development (CID) is located at the southwest of Gerald Ford Drive and Da Vall Drive, Cathedral City, California. We are using an inception date for the components of January 1, 2003. ***This study is for January 1, 2023 through December 31, 2023, the Association's fiscal year.***

In general, reserve funds are funds set aside from collected association fees paid by owners of a common interest development. These funds earn interest and are disbursed when deemed necessary by the Board of Directors. The purpose of a reserve study is to determine how much money should exist in a reserve fund at a given point in time or to project required future contributions and expenditure amounts so that sufficient reserve funds are available when needed. Our reserve study is generated using proprietary SCT software and a combination of local industry standards and national average replacement costs.

The SCT software utilizes the weighted average life (WAL) of the reserve components. The future cost method for the WAL is calculated by using the current replacement cost of each component, as of the analysis date, and the number of years until each reserve component is scheduled to be replaced. This determines the monthly reserve contributions needed and calculates the future reserve balances.

A 30-year “Cash Flow and Percent Funded Projection” analysis and “Graph” are produced to verify and define the relationship of the Cash Flow (annual beginning balance) with respect to the 100% funded amount. Ideally, the Cash Flow line of the graph should run parallel to and below the “Percent Funded” line of the graph, see funding goals.

The following study has been prepared with several assumed factors taken into account: 2.00% inflation rate; a 3.00% return on investment (interest earned); taxes on interest earned is paid for through the operating fund; an estimated remaining life of each reserve component; and an estimated current replacement cost of each reserve component.

Typically, any component that has a life cycle (full life) of less than two years should be budgeted and paid for through normal operating or property maintenance funds and is not included as part of this study.

The current deficiency (or surplus if the number is in parenthesis) in reserve funding expressed on a per unit basis is \$6,170.08. This is calculated by subtracting the ending balance (\$269,750) from the 100% funded figure (\$1,059,520.80), then divided by the number of ownership interests (128). There is currently no requirement to be fully funded.

Summary (continued)

As of January 1, 2023, the estimated reserve fund balance is \$269,750 and the estimated current replacement cost is \$2,032,887 of the portfolio of reserve components. The projected future replacement cost of the portfolio is \$2,753,502, calculated at an annually compounded inflation rate of 2.00%. The Davis-Stirling Common Interest Development Act requires the disclosure of the *current reserve fund balance divided by the current replacement cost* (this is not *Percent Funded*). Currently, *this factor for MONTAGE AT MISSION HILLS HOMEOWNERS ASSOCIATION is 13.27%*.

The Association's level of funding for the fiscal year (January 1, 2023 through December 31, 2023) which is based upon the final estimated reserve fund balance divided by the reserve components' fully funded amount is **25.37%, and is referred to as Percent Funded**. The Association would be 100.00% funded if there were \$1,092,066.51 in the reserve fund.

Our original analysis of the cash flow for this association indicated future inadequate funding (see the graph, the "square box and/or pink line"). This line represents the cash flow if there were no annual increases to the Reserves. ***We recommend the Board of Directors allocate a monthly amount of \$6,230.00 starting in 2023 (\$48.67 per unit per month for each of the 128 ownership interests) towards the reserve fund. To offset the over/under cash results of the report, we recommend and have included a change of 3.54% starting in 2024 for 29 years. This report includes \$40,428 for Palm Tree Plan Surcharge in 2023 for 5 years.*** The Board of Directors may raise or lower this amount, however, it will impact the level of funding on reserves. These numbers, by themselves, are not a clear indicator of financial strength and could indicate underfunding, overfunding, or adequate funding.

Sincerely,

The image shows a handwritten signature in blue ink that reads "mcd". To the right of the signature is a circular professional seal. The seal contains the text "MICHAEL C GRAVES" around the top edge, "CAI - RS" in the center, and "00039" below that. At the bottom of the seal, it says "Designation Reserve Specialist".

HOMEOWNER'S INSURANCE INFORMATION **Individual Liability Policies and Loss Assessment Coverage** **CIVIL CODE SECTION 5300(B)(9)**

It is very important that you explore your own risks with a knowledgeable insurance agent and purchase coverage to protect you from liability caused by an accident occurring in your own unit, the common area, and/or any exclusive use common area (such as patios, garages, carports), and to protect you from any liability or insurance gaps in coverage between the Association's coverage and your own. We also recommended that you inquire about Loss Assessment and Earthquake Loss Assessment Coverage. The cost of an endorsement for loss assessment is minimal and provides protection to individual unit owners from any extraordinary special assessments, such as excess liability over the Association's insurance proceeds or an extraordinary expense incurred by the Association, allocated to the owners through a special assessment (such as special assessments to pay or rebuilding costs which exceed insurance proceeds from an earthquake or fire loss)

The Association will notify you as soon as reasonably practical if any of the Association's policies are cancelled and not immediately replaced or if there is a significant change in the coverage (reduction or the deductible). If a policy is issued to replace a policy and there is no lapse in coverage, the Association will notify you in its next annual mailing to members.

The attached summary of the association's policies of insurance provides only certain information as required by *Section 5300 of the Civil Code*, and should not be considered a substitute for the complete policy terms and conditions contained in the actual policies of insurance. Any association member may, upon request and provision of reasonable notice, review the association's insurance policies and, upon request and payment of reasonable duplication charges, obtain copies of those policies. Although the association maintains the policies of insurance specified in this summary, the association's policies of insurance may not cover your property, including personal property, real property improvements to or around your dwelling, or personal injuries or other losses that occur within or around your dwelling. Even if a loss is covered, you may nevertheless be responsible for paying all or a portion of any deductible that applies. Association members should consult with their individual insurance broker or agent for appropriate additional coverage.

State law requires that community associations disclose to the individual homeowners the extent of liability coverage carried by the Association.

Extract from California Civil Code section 5730 Notice Regarding Assessments and Foreclosure

NOTICE ASSESSMENTS AND FORECLOSURE

This notice outlines some of the rights and responsibilities of owners of property in common interest developments and the associations that manage them. Please refer to the sections of the Civil Code indicated for further information. A portion of the information in this notice applies only to liens recorded on or after January 1, 2003. You may wish to consult a lawyer if you dispute an assessment.

ASSESSMENTS AND FORECLOSURE

Assessments become delinquent 15 days after they are due, unless the governing documents provide for a longer time. The failure to pay association assessments may result in the loss of an owner's property through foreclosure. Foreclosure may occur either as a result of a court action, known as judicial foreclosure or without court action, often referred to as non-judicial foreclosure. For liens recorded on and after January 1, 2006, an association may not use judicial or non-judicial foreclosure to enforce that lien if the amount of the delinquent assessments or dues, exclusive of any accelerated assessments, late charges, fees, attorney's fees, interest, and costs of collection, is less than one thousand eight hundred dollars (\$1,800). For delinquent assessments or dues in excess of one thousand eight hundred dollars (\$1,800) or more than 12 months delinquent, an association may use judicial or non-judicial foreclosure subject to the conditions set forth in Article 3 (commencing with Section 5700) of Chapter 8 Part 5 of Division 4 of the Civil Code. When using judicial or non-judicial foreclosure, the association records a lien on the owner's property. The owner's property may be sold to satisfy the lien if the amounts secured by the lien are not paid. (Sections 5700 through 5720 of the Civil Code, inclusive)

In a judicial or non-judicial foreclosure, the association may recover assessments, reasonable costs of collection, reasonable attorney's fees, late charges, and interest. The association may not use non-judicial foreclosure to collect fines or penalties, except for costs to repair common areas damaged by a member or a member's guests, if the governing documents provide for this. (Sections 5725 of the Civil Code)

The association must comply with the requirements of Article 2 (commencing with Section 5650) Chapter 8 of Part 5 Division 4 of the Civil Code when collecting delinquent assessments. If the association fails to follow these requirements, it may not record a lien on the owner's property until it has satisfied those requirements. Any additional costs that result from satisfying the requirements are the responsibility of the association. (Section 5675 of the Civil Code)

At least 30 days prior to recording a lien on an owner's separate interest, the association must provide the owner of record with certain documents by certified mail, including a description of its collection and lien enforcement procedures and the method of calculating the amount. It must also provide an itemized statement of the charges owed by the owner. An owner has a right to review the association's records to verify the debt. (Section 5660 of the Civil Code)

If a lien is recorded against an owner's property in error, the person who recorded the lien is required to record a lien release within 21 days, and to provide an owner certain documents in this regard. (Section 5685 of the Civil Code)

The collection practices of the association may be governed by state and federal laws regarding fair debt collection. Penalties can be imposed for debt collection practices that violate these laws.

PAYMENTS

When an owner makes a payment, he or she may request a receipt, and the association is required to provide it. On the receipt, the association must indicate the date of payment and the person who received it. The association must inform owners of a mailing address for overnight payments. (Section 5655 of the Civil Code)

An owner may, but is not obligated to, pay under protest any disputed charge or sum levied by the association, including, but not limited to, an assessment, fine, penalty, late fee, collection cost, or monetary penalty imposed as a disciplinary measure, and by so doing, specifically reserve the right to contest the disputed charge or sum in court or otherwise.

An owner may dispute an assessment debt by submitting a written request for dispute resolution to the association as set forth in Article 2 (commencing with Section 5900) of Chapter 10 of Part 5 of Division 4 of the Civil Code. In addition, an association may not initiate a foreclosure without participating in alternative dispute resolution with a neutral third party as set forth in Article 3 (commencing with Section 5925) of Chapter 10 of Part 5 of Division 4 of the Civil Code, if so requested by the owner. Binding arbitration shall not be available if the association intends to initiate a judicial foreclosure.

An owner is not liable for charges, interest, and costs of collection, if it is established that the assessment was paid properly on time.
(Section 5685 of the Civil Code)

MEETINGS AND PAYMENT PLANS

An owner of a separate interest that is not a time-share may request the association to consider a payment plan to satisfy a delinquent assessment. The association must inform owners of the standards for payment plans, if any exist.
(Section 5665 of the Civil Code)

The board of directors must meet with an owner who makes a proper written request for a meeting to discuss a payment plan when the owner has received a notice of a delinquent assessment. These payment plans must conform to the payment plan standards of the association, if they exist. (Section 5665 of the Civil Code)

INTERNAL DISPUTE RESOLUTION PROCEDURE

The California Legislature has adopted new regulations codified in *Civil Code Sections 5900 through 5920*, which require Associations to adopt fair, reasonable and expeditious dispute resolution procedures, effective January 1, 2005. This is separate and apart from, and precedes, the formal ADR (Alternative Dispute Resolution) requirements set forth in *Civil Code Section 5925 through 5965*. The Association has adopted the following procedures as required under such law:

1. The Association or an Owner may invoke the procedures herein by submitting a request to the other to meet and confer in an effort to resolve any existing dispute. The request must be in writing.
2. An Owner may refuse a request to meet and confer made by the Association with the understanding that further enforcement action may be taken if the dispute is not resolved. The Association may not refuse a request by an Owner to meet and confer.
3. The Association's Board of Directors shall designate a Board member to meet and confer with an Owner.
4. The designated Board member and the Owner shall meet promptly at a mutually convenient time and place. The parties shall explain their positions to each other and attempt, in good faith to resolve the dispute.
5. Any resolution of the dispute agreed to by the parties shall be set forth in writing and signed by the Owner and the designated Board member on behalf of the Association.
6. An agreement reached under this procedure is binding on the Owner and the Association and is enforceable in court if both of the following conditions are met:
 - a. The agreement is not in conflict with law or the Association's governing documents.
 - b. The agreement is consistent with the authority granted by the Board of Director's to the designated Board member or is ratified by the Board.
7. Owners will not be charged a fee to participate in this process.

ALTERNATIVE DISPUTE RESOLUTION

Beginning January 1, 1994, California law provides that when the owner of a separate interest (a Homeowner) or the common interest development (CID)/association brings an action:

- a) solely for declaratory relief or injunction relief; or
- b) either of those in conjunction with a claim for monetary damages; (Other than Association Assessments, not to exceed \$5,000) relating to the enforcement of the governing documents of the association, they shall endeavor to submit the matter to alternative dispute resolution (ADR).

What this means, in general, is that in those prescribed types of disputes, before filing a lawsuit, an attempt must be made to settle. This must be done in a semi technical manner. The method of beginning the attempt at ADR is to serve on the opposing party a Request for Resolution. With certain exceptions, the law requires a certificate be filed with any civil action, certifying compliance with the above stated requirements.

Please be advised that the statement above is intended to be only the broadest of interpretations and merely to advise that such a law exists. There are a number of other factors involved, including attorney's fees; arbitration or mediation costs; and the results of not conforming to this law (*Civil Code § 5925 through 5965*).

The California legislature has also provided that each year your Association must send out a summary of this law and that summary must specifically include the following excerpt of the law:

“Failure by any member of the association to comply with the pre-filing requirements of § 5930 of the *Civil Code* may result in the loss of your rights to sue the association or another member of the association regarding enforcement of the governing documents”.

As you can see, failure to comply with this law may prejudice your rights. We strongly urge each one of you to carefully read the statute and consult with an attorney prior to commencing any litigation regarding the enforcement of the governing documents.

Re: Notice of Proposed Policy Changes

Dear Members of the Association:

The Board of Directors proposes to adopt the attached updated various Board policies at their January 2017 Board meeting.

The purpose of the policies is to provide fair, nondiscriminatory procedures for enforcing the Association's governing documents.

Under Civil Code Section 4360, the Board of Directors must provide the members with 30 days' notice of proposed policy changes as defined in the statute. During that 30-day period, members may submit comments on the proposed policies to the Association. The Board of Directors will determine whether to adopt the proposed policies in an open meeting of the Board after the 30-day period expires. At or before that meeting, you will have the opportunity to present any comments for the Board's consideration.

Sincerely,

Board of Directors

Board Policy - Assessment Collection Policy and Standards for Payment Plans

Prompt payment of Assessments by all owners is critical to the financial health of the Association, and to the enhancement of the property values of our homes. Your Board of Directors takes very seriously its obligation to enforce the members' obligation to pay assessments. The Board has adopted this Collection Policy in an effort to discharge that obligation in a fair, consistent and effective manner. The following are the Association's assessment collection practices and policies, and payment plan standards.

1. **Due Dates:** Regular assessments are due and payable on the first day of each month. It is the owner's responsibility to timely pay each assessment regardless of whether a statement is received. All other assessments, including special assessments, are due and payable on the date specified in the notice of assessment.
2. **Obligation to Pay:** Assessments, late charges, interest, reasonable collection costs, including management and attorneys' fees, if any, are the personal obligation of the owner of the subject property (the "Property") at the time the assessment or other sums are levied. Owners shall be responsible for all such amounts unless it is determined that all assessments were paid on time to the Association.
3. **Late Charges:** Unpaid assessments are delinquent 15 days after they are due. A late charge of \$10.00 (not more than \$10.00 or 10%) will be charged for any assessment which is not paid in full within 15 days of the due date.
4. **Interest:** Interest on the balance due will accrue at the "Prime Rate plus 2%" per annum commencing thirty (30) days after the assessment becomes due.
5. **Application of Payments:** Any payments received will be applied first to assessments owed, and, only after the assessments owed are paid in full will the payments be applied to fees and costs of collection, late charges and/or interest. Payments will be applied to assessments so that the oldest assessment arrearages are retired first, unless the payment indicates that it shall be otherwise applied. A late charge may accrue if payment is not sufficient to satisfy all delinquent assessments, and the current month's assessment.
6. **Delinquency Notice:** If any assessment becomes delinquent, the Association will send a notice regarding the delinquency, and demanding payment thereof, to the owner at his/her address or addresses on file with the Association. The owner will be charged a fee for such delinquency notice. If the amount set forth in the delinquency notice is not received before the due date set forth therein,

the matter may be turned over to a collection agent or an attorney for further action, including legal action, or the Association may take such other collection action as it deems appropriate.

7. **Right to Submit Secondary Address:** Owners may submit a written request to the Association to use a secondary address Any such request must be mailed to the Association (at the address indicated below) in a manner that shall indicate that the Association has received it (e.g., via certified mail). CC §4040(b)) The Association will send notices to the indicated secondary address only from and after the point that the Association receives any such request. Nothing herein shall require the Association to re-send or duplicate any notice sent to the owner prior to the date that a request for a secondary address is received.
8. **Suspension of Privileges:** Without prejudice to its right to continue with and/or take other collection action, in the event an assessment is not paid within 15 days of its due date, an owner's membership rights, including, but not limited to voting rights, or fights of use and enjoyment of the recreational common areas and common facilities may be suspended after notice and a hearing pursuant to Corporations Code §7341. The Association will not deny an owner or occupant physical access to his or her separate Interest by way of any such suspension of privileges.
9. **Pre-Lien Notice:** Prior to recording a lien for delinquent assessments, the Association, its collection agent or attorney will send a pre-lien letter to the record owner as required by CC §5660(a)-(f), by certified and first class mail to the owner's address of record with the Association. The owner will be charged a fee for such pre-lien letter. The Association may obtain a vesting report from a title company in connection with preparation of a pre-lien letter. If a vesting report is obtained, the owner will be charged a fee for the report.
10. **Opportunity to Meet and Confer:** An owner may dispute the debt noticed in the pre-lien letter by submitting to the board a written request to meet and confer with a designated director of the Association pursuant to the Association's Internal Dispute Resolution Policy adopted pursuant to CC§591 0.
11. **Right to Request a Payment Plan:** Owners may submit a written request to meet with the board to discuss a payment plan. If such request is mailed within 15 days of the postmark of the pre-lien notice, the board will meet with the owner, in executive session, within 45 days of the postmark of such request, unless there is no regularly-scheduled meeting of the board within that period of time, In which case the board may designate a committee of one or more

[Type text]

directors to meet with the owner. In addition to the foregoing procedure for requesting a payment plan, an owner may negotiate a payment plan with the Association's managing agent, attorney or authorized collection agent. Any payment plan must comply with the Standards for Payment Plans set forth herein below.

12. **Standards for Payment Plans:** Payment plans will be considered on a case-by-case basis. Generally, no payment plan may exceed six (6) months in duration. Fees and/or costs may be charged for the administration of any payment plan, and may vary based upon the duration of the payment plan. Any request for a payment plan which exceeds six months in duration must be accompanied by a written explanation of the reason for the request, which includes documentation of the owner's special circumstances, financial hardship, and ability to make the payments requested. If a lien has not been recorded prior to the time that any payment plan is entered into, one may be recorded during the repayment period to secure the debt while the payment plan is pending. Payment plans must provide for full payment of the delinquent amounts, in addition to the amounts which will accrue during the repayment period, including any regular and/or special assessments, and any fees and/or costs related to the administration of the payment plan and/or for the recording and/or release of any lien. Once a payment plan is entered into, additional late charges will not accrue for so long as the owner complies with the terms of the payment plan. 16. **Foreclosure of Lien:** The Association will not seek to foreclose any lien through judicial or non-judicial foreclosure unless and until the amount of delinquent assessments secured thereby reaches \$1,800.00, or until the assessments are at least twelve (12) months delinquent. INTRODUCTION

Montage at Mission Hills was designed and developed to serve as an owner's primary or secondary residence. The purpose of the Montage Homeowners Association (HOA) is to ensure that the original Community's aesthetic integrity is maintained and that common rules of courtesy are observed for the Community's common good.

Montage at Mission Hills is a Planned Unit Development (PUD) and individual property maintenance is each owner's responsibility, including residence and landscape upkeep. In addition, Owners are responsible for maintaining homeowner liability insurance, including fire, earthquake, and personal property. The HOA is responsible for maintaining liability insurance limited to the Common Areas.

The following pages outline the HOA's *Rules and Regulations* and are intended to aid Owners, their families, guests, and tenants, in determining a reasonable method of conduct. The HOA Board of Directors is authorized to impose penalties, fines, or any reasonable action required to ensure the *Rules and Regulations* are observed. Some rules and regulations restate and expand upon the HOA's provisions of the *Declaration of Covenants, Conditions, Restrictions, and Reservation of Easements (CC&Rs)* and are not considered to be a conflict. However, if a conflict is found between the *Rules and Regulations* and the *CC&Rs*, then the *CC&Rs* shall govern.

Owners are encouraged to review both the *CC&Rs* and the *Rules and Regulations* to avoid inadvertent HOA rules' violations. Capitalized terms found in the *Rules and Regulations* have the same definitions found in the *CC&Rs*. The *Rules and Regulations* may be changed or adjusted to reflect a majority of the Owners' issues and concerns. Written suggestions for adjustments to the *Rules and Regulations* should be brought to the attention of the HOA's Community Manager or the HOA Board of Directors.

Owners must provide a copy of the *Rules and Regulations* to tenants/lessees. It is the Owner's responsibility to ensure that their tenants/lessees read and understand the *Rules and Regulations* of the Community prior to occupancy. Owners are also required to have their tenants/lessees sign a *Rules and Regulation—Agreement* form. A copy of this form, found at the back of this document, must be sent to the HOA's Community Manager. Owners, as well as tenants/lessees, are expected at all times to comply with the *Rules and Regulations*.

RULES AND REGULATIONS — FAQs

WHAT ARE RULES AND REGULATIONS?

When you purchase a residence that is part of a Community Association, you automatically become a member of the Association and are responsible for following its **Rules and Regulations**. The primary purpose of having Community rules and standards is to protect your investment as a homeowner and provide a common framework for neighbors.

Rules and Regulations is a catch-all for the issues that aren't covered in the CC&Rs, Bylaws or Board Policies. These are often the rules that might need revising over time due to changes in the Community and following legal requirements.

Rules and Regulations can be changed by an HOA Board vote with review and comment by the members of the Community. The Board, in considering a "rule change," shall provide notice to the Community members who will have twenty-eight (28) days to review and comment. After the twenty-eight (28) day period the Board will review Owners' comments and concerns, considering the members' feedback in their final decision before making the rule change.

WHO MAKES THE RULES FOR MY HOA?

The source for almost all HOA rules are the Governing Documents. These documents are created during the formation of the Association—usually by the developer of the property. Once the developer turns over control of the Community, the HOA is run by an elected Board of Directors. This Board has the power to implement additional rules. Additionally, local, state, and federal government bodies also pass new laws that may create or alter regulations that are set by the Association.

WHAT ARE GOVERNING DOCUMENTS?

Our Governing Documents include: *Declaration of Covenants, Conditions, Restrictions, and Reservation of Easements* (CC&Rs), Articles of Incorporation, Bylaws, Rules and Regulations, other operating rules, such as the Election Rules and Assessment Collection Policy, and Board Policies.

WHAT ARE CC&Rs?

The *Declaration of Covenants, Conditions, Restrictions, and Reservation of Easements* (CC&Rs), is a legal document which outlines the rights and responsibilities of the Association, Board members, and Owners. It details the ownership rights of the Owners versus the Association and spells out architectural standards for the Community.

WHAT ARE BYLAWS?

The Bylaws outline the logistics of how the Community and HOA should function. They include election guidelines and term limits for Board members, along with details on meetings and budgets for the Community.

WHAT ARE THE BENEFITS OF HOA RULES?

At first glance, having rules and regulations for a neighborhood or Community may seem restrictive. However, there are many benefits to having a robust set of guidelines, including:

- Preserving the aesthetics of the Community
 - Protecting and enhancing home values
 - Maintaining the property of the Association and its Owners
 - Enforcing the Community's Governing Documents
 - Promoting the safety of the Community
 - Increasing Community pride and engagement
-

WHAT ARE SOME HOA RULES?

- Architectural standards and restrictions
 - Lawn and holiday decoration restrictions
 - Home maintenance standards
 - Noise complaint policies
 - Parking rules and guidelines
 - Pet restrictions
 - Short-term rental restrictions
-

CAN AN HOA BOARD CHANGE OR ADD RULES?

Yes, the Board has the authority to adopt new rules for the Community, as long as the new rules aren't in conflict with the CC&Rs, Articles of Incorporation, Bylaws, or local, state, or federal law. If an Owner isn't happy with a particular rule, they are encouraged to use the proper channels to change the HOA's rules. Attending Board meetings and working with the Board is the best way to monitor the rules in the Community.

DO I HAVE TO FOLLOW MY HOA'S RULES?

Yes, the Governing Documents, which include the *Rules and Regulations*, must be followed. When neighbors work together to enhance the Association, everyone sees the benefits—including increased property values, architectural continuity, and a greater sense of Community.

HOW DOES AN HOA ENFORCE RULES?

If an issue arises, Owners are encouraged to contact the neighbor directly or submit a *Concern* form to the Community Manager. The Board of Directors' enforcement policies may include warnings, fines, and legal actions. Not following HOA rules can carry legal and financial consequences—including placing a lien on your home. However, most violations get corrected with a friendly reminder by phone call, text, or mail.
